

Chief of Safety - SFU Rocketry

Description

SFU Rocketry is seeking an outstanding individual to become the Chief of Safety, an officer and an executive board-level position.

In this vital role, you will be responsible for ensuring the safety of all design team activities, both in-lab and in-field. As the Chief of Safety, you will work closely with the club executives, project leadership, and members to develop and implement safety protocols, conduct risk assessments, and promote a culture of safety and well-being throughout the club. This position is an excellent opportunity to gain hands-on experience in management while contributing to the exciting field of rocketry.

Duties & Responsibilities

- Develop and implement safety protocols for in-lab and in-field activities
- Conduct regular safety audits, inspections, and risk assessments
- Ensure compliance with relevant safety regulations, standards, and best practices
- Collaborate with club leadership and members to promote a culture of safety
- Provide safety training and guidance to club members
- Manage safety equipment and gear used in rocketry or similar environments
- Address potential safety issues with a proactive approach
- Contribute with a minimum of 6 hours of work and 2 hours of meetings per week

Key Qualifications

- Team leadership experience
- Product management experience is a strong asset
- High level of professionalism
- Unifying, motivating, and inspiring
- Self-starter, inspired to initiate action
- Interest in safety management, preferably with some experience or exposure in technical fields
- Basic understanding of safety principles and willingness to learn about relevant safety regulations, standards, and best practices
- Good communication and interpersonal skills, with the ability to share safety concepts and procedures with fellow club members
- Eagerness to participate in safety audits, inspections, and risk assessments
- Ability to collaborate with various teams and stakeholders to promote a culture of safety within the club
- Willingness to take on a leadership role in safety-related matters and address potential issues with a proactive approach
- Familiarity with or a willingness to learn about common safety equipment and gear used in rocketry or similar environments
- A detail-oriented mindset and a strong commitment to maintaining a safe working environment for all club members

Education & Experience

- Undergraduate or graduate students from any field of study are welcome to apply, with preference given to those studying in fields related to safety, engineering, or rocketry
- Preference for third/fourth year if in undergraduate studies
- Prior experience in safety management or a related field is an asset but not required, as we are willing to provide training for the right candidate

Job Details

- Part-Time / Casual
- Volunteer Student Administrative Position
- Hybrid - Surrey SFU Engineering Building
- Commitment for a minimum of 8 months after onboarding

Statement from SFU Rocketry

SFU Rocketry is an inclusive and equal-opportunity organization. We welcome, include, and respect all regardless of race, colour, ancestry, place of origin, religion, family status, marital status, physical disability, mental disability, sex, age, sexual orientation, gender identity or expression, political belief, or conviction of a criminal or summary conviction offence unrelated to employment.

SFU Rocketry is Simon Fraser University's largest active design team in the university's history, and has a strong reputation to uphold. Our members are highly sought-after and have been actively recruited for permanent and co-op intern industry positions. We operate as a professional organization, where professional conduct is required and expected from all SFU Rocketry members at all times.
